

18th June 2013

DEMOLITION OF TAYSIDE HOUSE

This leaflet provides information about the demolition works and how surrounding community may be affected by these operations.

DEMOLITION UPDATE

The demolition of the building using our new high reach demolition machine is making good progress. We are now at a crucial point in the demolition process, and, in order to carry out the works safely, it has been agreed that demolition works will occur outwith our normal operating hours. On Wednesday 19th, Thursday 20th and Friday 21st June, between 7pm-10pm, one lane will be closed on Dock Street to facilitate the demolition operations. We will have operatives in place to help with the flow of traffic.

Depending on progress, we may have to repeat this process the following week or the week after.

There will be an element of noise and dust during these works that will be unavoidable, but every effort will be made to keep this to a minimum.

We would like to take this opportunity to thank you for your co-operation and patience during these essential operations.
